Forecast for Monday 15 May 2023

Weather: A chilly start, though dry and largely sunny. Some fair weather cloud will bubble up in the morning, leading to a mixture of sunny spells and isolated showers in the afternoon. Not quite feeling as warm as the weekend and it will be a noticeably breezier day than of late.

Chance of cloud-free hill tops above 600m: 90% initially but rapidly becoming 100%.

Low cloud and visibility: Some patchy low cloud possible in the north of the park at first, with bases as low as 600m, rapidly rising above summits. Visibility will be very good or excellent, with distant hills and peaks clearly visible.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Chilly over the summits at first but the sun will soon become strong, with moderate to locally high UV levels so extra protection is recommended.

Recent rainfall: measured at Neuadd: altitude 353m
